EXPERIENCE

Web Developer Intern

Cinema Verde

August 2025 - Present

Gainesville, Florida

- Modernized websites with responsive, mobile-first layouts in **Webflow** and **Squarespace**.
- Improved navigation and accessibility to enhance usability.
- Published multimedia content to Roku channel, optimizing performance for streaming users.

Software Engineer Intern

Publix Super Markets

May 2025 - July 2025

Lakeland, Florida

- Designed and developed a **GS1 DataMatrix barcode validation tool** using **C#, SQL, XAML**.
- **Improved validation speed by 98%**, reducing processing time from 15 minutes to 15 seconds.
- Integrated REST APIs and deployed solution within Agile/DevOps workflows.

Resident Assistant

University of Florida

August 2022 - May 2024

Gainesville, Florida

- Fostered an inclusive community for **100+ residents** from diverse backgrounds.
- Organized events, managed budgets, and designed promotional materials.
- Resolved concerns through **mediation and crisis management** while on-call.

PROJECTS

The RecipeGrind

2025

- Built full-stack recipe app with **React** (TypeScript), Express, Prisma, PostgreSQL.
- Developed “Pantry Mode” scoring algorithm with fast filters and Material-UI interface.
- Integrated Spoonacular **API** and proxy/caching for efficient recipe discovery.

Azenda

2024

- Built a full-stack scheduling app with **Django** (backend) and **Next.js** (frontend).
- Implemented login, task creation, and an interactive calendar UI with custom 30-minute scheduling blocks.
- Designed personalized planning features based on user-defined sleep/work preferences.

UF Events

2024

- Conducted **user research** and **interviews** with UF students to identify engagement challenges.
- Designed low-fidelity wireframes and translated them into a high-fidelity interactive prototype in **Figma**.
- Built an event-discovery solution to improve accessibility and participation in campus activities.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, Java, C++, C#, SQL, XAML
- **Frontend:** React, Next.js, Tailwind CSS, Material-UI, Xamarin.Forms, Accessibility (WCAG)
- **Backend:** Django, Prisma, PostgreSQL, .NET
- **Tools:** Git/GitHub, Azure DevOps, Agile/Scrum
