Experience

Cinema Verde, Product Management/UX Engineer Intern - Gainesville, FL Aug 2025 - Dec 2025

- Led end-to-end website redesign initiatives across Webflow and Squarespace, improving navigation, accessibility, and content discoverability.
- Gathered **stakeholder input** and translated user and business needs into structured design recommendations.
- Defined project scope, prioritized UX improvements, and ensured alignment with WCAG accessibility standards.
- Coordinated cross-functional efforts between design and content teams to deliver user-centered solutions

Publix Super Markets, Software Engineer Intern - Lakeland, FL May 2025 - July 2025

- Led development of a barcode validation tool, aligning technical implementation with business requirements.
- Translated operational needs into scalable system workflows, improving process accuracy and reducing manual effort by 98% (15 min → 15 sec).
- Managed development lifecycle, including requirements gathering, implementation, and deployment.
- Collaborated in Agile sprints with cross-functional teams to deliver a production-ready application.

University of Florida, Resident Assistant- Gainesville, FL Aug 2022 - May 2024

- Managed operations for a residential community of 100+ students, balancing multiple priorities in a fast-paced environment.
- Planned and executed community events, overseeing logistics, scheduling, and engagement initiatives.
- Resolved conflicts and escalated issues appropriately, strengthening stakeholder communication and documentation practices.

Education

University of Florida December 2025

Bachelor of Science in Computer Science, Minor in Digital Arts and Sciences

AI Fundamentals Certification

Relevant Coursework: Project Methodologies, Human Computer Interaction, UX Design, Digital Visualization & Culture, Introduction to Computer Organization, AI Fundamentals

Projects

ARC - Action, Resources, Care | *UX Research, Figma, React Native, Claude, OpenAI*

- Conducted **research with 40+ first responders** to identify barriers and needs related to mental health resources.
- Synthesized findings into **user flows**, experience priorities, and decisions focused on privacy, trust, and usability.
- Created **wireframes** and **high-fidelity prototypes** to communicate the proposed solution and improve usability.

UF Events | *UX Research, Figma, User Stories, Prototyping,*

- Conducted **user research and interviews with students** to understand event discovery difficulties.
- Built **low and high fidelity** prototypes to improve navigation, planning, and content organization.
- Developed **user flows** and design recommendations to support clearer event browsing and participation.

Swamp Path | *React, UX Research, Interface Design, JavaScript, CSS, Claude, OpenAI*

- **Interviewed 13+ students** to identify scheduling frustrations and workflow inefficiencies.
- Translated research into an interface that reduced scheduling friction through conflict detection and visibility.
- Designed an interactive experience that improved usability for course planning and multistep decision-making.
